Abstract (en)

[origin: EP1463376A2] The volume and on/off switching system (1) is adapted for use with a hearing aid (2). It has a switching member (8) with C-shaped clips engaging on a transverse axis (9). It has an outward projecting portion with convex grip surfaces (12). Cam projections (10,11) on either side of the switching member engage small button surfaces (5,6) on switching members (3,4) which consist of microswitches mounted on a circuit board (7).
