Abstract (en)

[origin: EP1464586A1] Cover and protection element for ordered groups of containers in the form of packs, comprising at least one pair of adjacent containers (3) of rectangular plan which are each provided with a pouring spout and stopper (31), and kept together by a lateral wrapping band with which a handgrip (5) is associated, said element consisting of a generally flat profiled body (2) to be positioned in the manner of a hood on the top of the pack (1 ), and presenting a plan shape practically equal to that of the pack and a depth at least slightly greater than the height of the stopper, said body being divided into a number of compartments equal to the number of containers. <IMAGE>
