Abstract (en)
[origin: WO03059715A2] The invention relates to a handle (12) for a transport cart (10), in particular a shopping trolley, comprising a handle rod (14). At least one tongue and groove joint (24) for fixing an accessory piece (18) is provided. Said tongue and groove joint permits the fixing of accessory pieces without further fixing elements. Accessory pieces can thus be fixed to the handle rod, in particular in a rotationally fixed manner. The invention further relates to a transport cart with such a handle.
