Abstract (en)  
[origin: EP1469157A1] The sealing strip (10) has a C-shaped profile (12) in cross section, and at least one system clip (14) enclosed by the C-profile. The system clip is held in the C-profile by clamping. The first and second small legs (16,18) of the C-profile are angled in relation to the long side (20). The first and/or second leg are inclined by about 14 degrees inwards from the verticals on the corresponding part of the long side. The long side, close to the second short leg (18), has a bent down section (22).
