Abstract (en)

[origin: WO02076436A2] The invention pertains to a dietary supplement composition, comprising at least two compositions A and B which are to be taken at different points in time, wherein composition A consists essentially of water soluble vitamins and composition B consists essentially of fat soluble vitamins. Composition A is an energy-rich composition, comprised of water soluble vitamins, supplemented with further ingredients and minerals, which is taken in the morning and preferably immediately after breakfast. Composition B is a composition for recovery of the cells in the rest phase (i.e. during the night), comprised of fat soluble vitamins, supplemented with other ingredients and minerals, which is taken in the evening and preferably immediately after dinner. Composition A comprises as vitamins predominantly vitamin C, vitamin B-1, vitamin B-2, vitamin B-3, vitamin B-5, vitamin B-6, vitamin B-12, vitamin B-15, and vitamin H, and composition B comprises as vitamins predominantly vitamin A, provitamin A, vitamin C, vitamin D3, and vitamin K1.
