Abstract (en)

[origin: WO03028955A1] The invention relates to a sandwich panel-type wall construction comprising an upright framework (1). Two parallel lateral walls (57) are solidly connected to said upright framework (1) on either side thereof. The inventive construction is characterised in that the upright framework (1) is solidly connected to the lateral walls (57) by fitting said uprights (1) to said walls (57).
