Abstract (en)

[origin: EP1471202A2] The sealing strip (1) for spanning a gap (40) between a building surface (4) and a frame (2) comprises an insert profile (14) which incorporates an insert element (140) snapping into a corresponding groove (20) in the frame. The insert profile also incorporates a U-shaped seating section (141) for the end of the sealing strip.
