Abstract (en)

[origin: WO03063754A1] There is provided a compliance reminder aid for prompting a user to take doses of a medicament at prescribed periods. The compliance aid comprises a holder for holding a medicament delivery device. The holder includes an electronic dose reminder system comprising a detector for detecting the presence of a medicament delivery device within the holder: a timer for timing a time period a dose interval, a dose interval memory for storing data relating to a prescribed dose interval and a patient alerter for alerting a user to take a dose of medicament.
