Abstract (en)
[origin: WO03066765A1] The present invention relates to a method of joining two or more pieces of wood based materials, comprising the steps of providing at least two pieces of wood based material separately applying an adhesive composition A, comprising a curable resin, and a composition B, comprising a gel forming substance, onto at least one of said at least two pieces joining the two pieces together to form an assembly having the compositions A and B situated between the pieces pre-pressing the obtained assembly, with no curing of the resin and then, hot-pressing the assembly to cure the resin. It also relates to wood based products made by the method.
