Abstract (en)

[origin: EP1473155A1] Two lighting stations (28, 30) include holders (31, 32) for cylinders (35, 36) and have common laser optic (18). This can be moved between two positions. In one, it is close to the plate on a cylinder in the first lighting station, in the other it is close to the plate on the other cylinder, in the second lighting station.
