Abstract (en)

[origin: EP1475517A1] The device has a set of control levers (40) with each lever comprising an end (46) provided with a driving hole (45). The hole has a driving part (13) contacting with a driving part (16) of a vane (10) for defining a contact zone (41). A sealing clearance compensation plate (50) is mounted on the lever end to drive the end on the part (16). An exterior pivot (11) is connected to the vane by the part (16).
