Abstract (en)
[origin: EP1477422A1] The transporting device (1) for milk products has a rectangular base surface (2) upon which are provided retaining means to hold several similarly shaped containers for the milk products. For at least a first and especially longer base surface edge length a whole number fraction of a Europallet edge length is provided and has a value ranging between 2 and 6. For the first base surface edge length is provided a half Europallet edge length and especially of the shorter Europallet edge length.
