Abstract (en)
[origin: EP1477600A2] Circular knitting machine includes two needle beds for fixing a vertical and a horizontal comb spacing and a stitch spacing. The stitch spacing has a value of ≥ 6 mm. The knitting needles of the needle bed(s) are configured as compound needles having hooks (5a, 15.1). Circular knitting machine comprises a first needle bed in the form of a needle cylinder having grooves in which first knitting needles are slidably mounted. A second needle bed is in the form of a dial having grooves in which second knitting needles are slidably mounted. First and second cams (3) control the first and the second knitting needles, respectively. The two needle beds fix a vertical and a horizontal comb spacing and a stitch spacing. The stitch spacing has a value of ≥ 6 mm. The knitting needles (2, 5) of the needle bed(s) are configured as compound needles having hooks.
