Abstract (en)
[origin: WO03071191A1] The invention relates to a standing household appliance, particularly a cooking device, comprising a base (1) which is mounted on props (11) and is adjustable in height and a housing (4) which encloses the base (1) and is provided with at least two side walls (5). The inventive standing household appliance, the housing (4) of which can easily and quickly be adjusted to different heights of the props (11), is characterized by the fact that the housing (4) is extendable at least in part at the end facing the props.
