Abstract (en)

[origin: EP1479598A2] The bicycle storage rack has a frame and supports (2) with a horizontal strut (3) which is angled to supporting struts (4) which stretch out off the base. The struts stretch to the ground and a horizontal support (5) extends to the front of the strut. Supports and struts can be screwed to the ground or left and the frame offers a high degree of support and prevent unwanted access to the bicycle.
