Abstract (en)
[origin: DE10209185C1] The passenger seat (1) has a backrest (11) which is adjustable between an upright position and a rearwards inclined resting position, a seat squab (2) with a variable seat depth and an inclination setting device and a leg support (3) which is adjustable between a stowed position and an extended working position. A seat padding (25) fits over the seat squab and the top part of the leg support.
