Abstract (en)
[origin: WO03074927A1] The invention relates to an air conditioning system comprising at least a tubular conduit element 1 having a support structure 4, 5, 8 and an insulating material 6 fastened to the support structure, and in the conduit a closing element 2 including a support structure 9 and an insulating material 6 attached to the support structure. The insulating material 6 of the air conditioning system, and the conduit element 1 and the closing element 2 further includes at least one film.
