Abstract (en)
[origin: EP1481941A1] The industrial truck has a frame (4) with side guide wheels (1) to guide the truck in a racking aisle. At least one guide wheel is rotatably mounted on a bracket (2) which by a clamp connection is fastened directly or indirectly on the frame in such a way that the position of the guide wheel is steplessly adjustable in the transverse direction of the truck. At least one bracket may be fastened on a running wheel axle which is rigidly connected to the frame. At least one bracket may be fastened to a buffer (3) rigidly connected to the frame.
