Abstract (en)
[origin: WO03076298A1] A dispenser (1) for a pack of wet wipes, has a stiff plastics material body (2) with a peripheral mounting flange (3) for attachment to a sidewall of a pack of wipes. A tear-open closure (4) is integrally formed with the body (2). A portion of a periphery of the closure (4) is tearable away from the body (2) to leave the closure (4) attached to the body (2) by a hinge (5). The closure (4) is mounted at an opening in the body (2) across which is stretched a silicone membrane having a circular dispensing opening through which wipes are dispensed from a flow-wrap plastics pack of wipes on which the dispenser (1) is mounted.
