Abstract (en)

[origin: WO03077722A1] The invention relates to a set of knives (10) for an electric motor-operated food processor (1), comprising a centrally fastened knife (11) which is provided with a cutting edge (18) at the opposite free end areas thereof. In order to technically and functionally enhance a set of knives of said type in an advantageous manner, said knife (11) is provided with two opposite sickle-shaped end sections (13, 14) which run in opposite directions, and the cutting edges (18) are embodied at the periphery of said sickle-shaped end sections.
