Abstract (en)

[origin: WO03078225A2] The invention relates to a deposit lock (22) for a transport car (10) with a pushing handle (18), comprising a checking element (26) for a deposit (27) and a locking element (28) for a key (30). A working connection is provided between the checking element and the locking element. A recess (50) for housing the pushing handle (18) is arranged between the checking element (26) and the locking element (28). The invention further relates to an advertisement support for a transport car with such a deposit lock and a transport car (10), in particular a shopping trolley with such a deposit lock (22).
