Abstract (en)
[origin: WO03078260A1] The invention relates to a container insert for insertion in a container. Said container belongs to a container system with various containers for stacking in and on each other and the container insert is embodied with a base (24), two short lateral walls (22, 23) and two long lateral walls (20, 21). The invention is characterised in that the container insert (10) is formed such as to be able to be inserted in a container of the container system and comprises at least one non-detachable separating wall (50), running between the long lateral walls (20, 21).
