Abstract (en)
[origin: WO03081071A1] The present invention relates to a disk brake caliper and to a piston-cylinder unit designed specifically for the caliper. More particularly, the present invention relates to a disk brake caliper comprising a caliper body (1) and, associated therewith, at least one actuator unit (2) for a pad, characterized in that the caliper body (1) is made of a ceramic composite, powder-metallurgical composite or pyroceram composite material.
