Abstract (en)

[origin: EP1493350A1] The comb has a space (8) defined between two teeth and a space (9) defined between teeth (5, 6). The space (8) has a height (H1) that is greater than a height (H2) of the space (9). The teeth (5, 6) retain mesh of hair between them, and the tooth (6) has a relief (11) projecting out in the space (9). The heights are measured in a direction perpendicular to an axis between bottom of the spaces and free ends of teeth. An independent claim is also included for a method of coloring or streaking a mesh of hair.
