Abstract (en)
The module carrier for use with a bottle labeling machine comprises a module support frame (1) mounted on a motorized trolley (2). This is fitted with a spindle-driven lift unit (7). The trolley moves to a position where the frame is above the machine bed (8). It is then lowered so that a centering bush (9) fits over a pin (10) on the bed, after which the trolley can be removed.

Abstract (de)
Vorgeschlagen wird ein Modulträger zur Verwendung an Etikettiermaschinen welche in Modulbauweise ausgeführt sind, dabei ist vorgesehen, dass der Modulträger mit Mitteln ausgestattet ist, die der leichten Beweglichkeit dienen.
