Abstract (en)
[origin: WO03086131A1] A Velcro connecting assembly provided with a first part and a second part which are detachably interconnected by means of a first Velcro connection, with the Velcro connecting assembly being further provided with a channel-shaped covering with at least one opening, with the first part extending from outside the covering through the at least one opening into the covering and the first Velcro connection being at least partly received in the covering, with the covering closely covering the first Velcro connection so that the first Velcro connection is not suitable to be detached manually.
