Abstract (en)

[origin: WO03086258A1] The invention concerns a process for manufacturing an absorbent article (4). Said process comprising the steps of: a) continuously feeding a first web (1) along a travelling path, said first web (1) comprising a first and a second opposing strip (9, 10) extending in the longitudinal direction and a first panel portion (11) located therebetween., b) continuously feeding a second web (2) along a travelling path, said second web (2) comprising a third and a fourth opposing strip (25, 26) and a second panel portion (20) located therebetween, c) cutting the first panel portion (11) into a number of first panels (14, 15), d) cutting the second panel portion (20) into a number of second panels (25, 26), e) forming a joint web (3) by placing the second web (2) over the first web (1), f) cutting the joint web (3) along attachment lines thereby forming the absorbent articles (4).
