Abstract (en)
A rail way flush with a car road or driving lane wherein the two parallel rails (2) are each provided in a trench (3) in the road surface, wherein the rail is embedded in embedding material (6) and wherein the rail is part of a prefab unit (11) comprising the rail and the embedding material in a tray structure. The tray structure is longitudinally divided and the gaps are filled with a flexible filling material with which expansions can be accomodated.
