Abstract (en)  
[origin: WO03092259A2] A digital film recorder includes a film recording device, such as a camera, a display device, and a track. The film recording device has a recording input. The display device includes a flat panel display. The track is coupled to the film recording device and to the display device. The track aligns the flat panel display with the recording input such that the film recording device can record images displayed on the flat panel display onto a recording medium.
