Abstract (en)
[origin: EP1359476A1] Timepiece comprises a plate (24) with a tourbillon (16) mounted on it. The latter comprises a moving cage that appears in an opening (14a) in the dial (14) and means for displaying time data, based on a selected time base. The means comprise a rotating annulus (40) that rotates within the dial opening around the cage and coaxial with it and drive means for rotation of the annulus.
