Abstract (en)

[origin: EP1500500A1] The machine has machine frame (10), and two cylinders which cooperate during printing and are mounted in the frame. The framing has side units, which comprise struts that are made of carbon fiber reinforced plastic, which has a direction transverse to axes of rotation of the cylinders. The plastic has a linear thermal expansion coefficient that is less than  $2 \times 10^{-6}$  kelvin<sup>-1</sup>.
