Abstract (en)

[origin: WO03091114A1] The invention relates to a device (10) for adding extra pieces of paper or similar to folding cardboard boxes in a packaging machine. Said device comprises a brochure device (25). According to the invention, the brochure device (25) is fixed to a carrier (21) by means of an adapter plate which is pivotably mounted in a horizontal manner in a bearing block (20). According to the inventive embodiment, it is possible to have ergonomic access to elements contained in the device (10) especially during maintenance work without having to dismantle parts of said inventive device (10).
