Abstract (en)
[origin: EP1361524A1] Method for preparing classified advertisements for publication in printed media, comprising the steps of: capturing (112) at least the textual content (30) of each classified advertisement expressed in natural language, automatically classifying and extracting (120-124) a plurality of data units (480) out of said textual content (30) and storing each data unit into a corresponding field of a record (48) in an electronic database (9), using said database for determining the textual content, the layout and/or the position of the classified advertisement in said printed media. <IMAGE>
