Abstract (en)  
[origin: WO03094433A2] A method for establishing a communications link between a first end user unit and a second end user unit includes communicating web site data from the first end user unit to a web site. The web site data are capable of activating the web site. A communications link unit is determined by the web site, the communications link unit providing communications links. The communications link is established between the first end user unit and the second end user unit via the communications link unit.
