Abstract (en)

[origin: WO03094466A2] The present invention relates to a communications environment wherein at least one telecommunications web site (TCWi) is provided on a portal (P). A communications environment includes a first end user unit configured for performing network-based communications and a web site corresponding to a specific entity. The web site provides, upon an accessing of the web site, private communications between the first end user unit and the specific entity.
