Abstract (en)

[origin: WO03097390A1] The invention relates to a heating and/or air-conditioning installation (1) for the passenger cell (12) of a vehicle. Said heating and/or air-conditioning installation (1) comprises a humidor (2) which is connected to the passenger cell (12) by means of ventilation channels (33), and a separate auxiliary heating system (4). The aim of the invention is to ensure that the heated air supplied by the auxiliary heating system (4) is efficiently regulated and/or distributed. To this end, said heated air is introduced into the passenger cell (12) via the humidor (2) and the ventilation channels (33) associated therewith.
