Abstract (en)

[origin: WO03098642A1] The invention relates to a flexible band or flat cable which is made of at least one electric current conductor provided with an insulating layer and embedded between at least two non-woven fabric layers. Said non-woven fabric layers are made purely of polyester, polyamide, polyolefin, syndiotactic polystyrene, polysulphone and/or glass fibres and are joined together by means of a binding means.
