Abstract (en)
The power flow element uses a contact pressure plate (3) to transfer force from the support structure to the compound material (5). The plate is pressed against the compound material through a pressure element such as a screw supported through a stirrup-shaped yoke (2b). Independent claim describes method for attaching power flow element by inserting compound material into stirrup-shaped yoke and pressing contact pressure plate against compound material through the pressure element or the like which is supported through the yoke.

Abstract (de)
Bei einem Krafteinleitungselement (1, 13) zur Verankerung eines bandförmigen Verbundwerkstoffs (5) an einer Tragstruktur (10), erfolgt eine Kraftübertragung von der Tragstruktur (10) auf den Verbundwerkstoff (5) mittels mindestens einer Anpressplatte (3). Die Anpressplatte (3) ist durch mindestens ein Mittel (4a, 4b) an den Verbundwerkstoff (5) angepresst ist, und das Mittel (4a, 4b) ist über ein bügelartiges Joch (2b) abgestützt.
