Abstract (en)

[origin: EP1515408A2] The spark plug has two plasma generation electrodes (103, 106), and a series resonator with resonance frequency greater than 1 mega hertz. The resonator includes a capacitor (111) with two terminals, and an inductive winding (112) connected in series. The inductive winding includes several coils superposed along its axis. The electrodes are connected to respective terminals of the capacitor.
