Abstract (en)  
An adjustable diffuser for air-conditioning plants comprises at least one fixed portion (2) and at least one movable portion (4) adapted to define at least one duct (6) between them for passage of the conditioned air, and at least one actuator (8) active on the movable portion (4) to carry out displacement of said movable portion. The actuator (8) comprises at least one spring (9) made of a shape-memory material and adapted to become longer reaching an extended position or get contracted to a shorted position, depending on the temperature of the air flow. <IMAGE>
