Abstract (en)
[origin: EP1518488A2] The invention provide a device for repositioning and washing brushes for toilet bowls, which comprises a body (11) forming a washing chamber (12), a system for holding in place said body on a supporting structure, a means (13) connectable to a water supply system to supply at least a jet of water to said washing chamber, and means (14) of discharging the water from the bottom of said washing chamber towards an outlet. One brush to be treated is placed in said chamber and possibly turned to be sprayed by the washing water.
