Abstract (en)

[origin: WO2004003201A2] Antisense compounds, compositions and methods are provided for modulating the expression of Liver Related Homolog-1 (LRH1). The compositions comprise antisense compounds, particularly antisense oligonucleotides, targeted to nucleic acids encoding LRH1. Methods of using these compounds for modulation of LRH1 expression and for treatment of diseases associated with expression of LRH1 are provided.
