Abstract (en)
[origin: WO2004005817A1] A cooling or freezing apparatus has at least one compartment (10, 11) for refrigerating, freezing and/or for air-conditioning and has a display device (1). Information specific to the at least one refrigerating, freezing and/or air-conditioning compartment (10, 11) can be displayed on said display device (1). The cooling or freezing apparatus is characterized in that the display device (1) is interactive, in that an input device (5 - 7) is provided, via which a user can input data, and in that displays can be generated by the display device (1) on the basis of data input by the user.
