Abstract (en)

[origin: EP1523022A2] A control panel has a front control area (26) and a part (24) protruding backwards. A touch-key support (20) has an opening (28), through which the projecting part (24) passes. Located on the rear side of the touch-key support, flexible devices (36) engage on the projecting part and pretension a touch-key (22a,22b) forwards against the touch-key support. An independent claim is also included for a panel system for a domestic machine.
