Abstract (en)

[origin: EP1524168A1] The signaling light unit has a reflector [12] with a first light bulb at the center [16] and a second one [18] in an offset position both for white light. A third bulb [20] is colored red and to prevent a phantom red light effect when the white light is on it is fitted with a shielding plate [16]. Green light is provided by an LED [26] that emits over a wide angle.
