Abstract (en)
[origin: EP1528193A1] The fitting has a case extending to a backside of a fixing plate (2) which has a longitudinal access opening (3) for giving access to an operating device (4A). The operating device acts as a handle at a sliding assembly (4B) which is mounted axially in the case. The assembly has a door-bolt (6) for receiving a locking unit e.g. hook bolt, and is defined by a sliding pad (4) having a case (18) for receiving and housing the door-bolt.
