Abstract (en)

A floor treatment tool (10) comprising a handle (11), a joint (12) and a drier part (20), such as a drying spatula, and holders (30a and 30b) provided with clamping parts (32a-32d), which holders can be locked onto the drier part by pressing so that the cloth (40), paper or mop will remain between the drier part and the holders or between the drier part and the clamping parts of the holders. The lower surface of the holders may be provided with a saw-toothed edge (33) or spikes (33). The holders are connected to the drier part or to its connecting part (21) by a joint (31), aperture or dovetail joint. The holder is preferably made of flexible material and, according to an embodiment, it is connected to the floor treatment tool by a string (35).
