Abstract (en)

The mesh screen cover for garden pools comprises knitted mesh netting of cotton or a synthetic material, with square meshes of 2mm to 30mm, fitted with a flexible rim or a tunnel of a solid fabric along the edge. The size and shape of the mesh screen cover are adjusted to the size and shape of the pool. The mesh screen cover can be fitted with fastening and fixing means along the edge. An elastic string is the most suitable means for such purposes.
