Abstract (en)

[origin: WO2004017809A2] The aim of the invention is to provide a method for adapting a rinsing program in a dishwasher machine, said method enabling the rinsing program run of a dishwasher machine to be adapted in such a way that satisfactory cleaning and drying performances are achieved even when using a combination rinse aid. To this end, the rinsing program run is adapted if a clear rinsing agent is not added, and if the dishwasher machine is on.
