Abstract (en)

[origin: WO2004001686A2] The invention relates to a banknote processing machine with a device for accepting banknotes. A banknote processing machine with a device for accepting banknotes comprises external walls which form an inner surface and moving inner walls for adjustment of the size of a tray surface for the banknotes to be accepted and an adjustment device, which adjusts the movable inner walls during and/or after the insertion of the device for the acceptance of banknotes such that a pre-determined size for the tray surface results.
